23 county associations of trades union councils

Introduction

Trades Union Councils and County Associations are an important part of the labour movement, bringing together activists at a grassroots level and representing the trade union movement to the broader community. All unions, affiliated to the TUC, are asked to circulate this directory to their union branches and encourage them to affiliate to their local trades union council.

This directory lists all 162 registered Trades Union Councils and 24 County Associations in England and Wales, by order of the region. We hope you find this directory useful.
