

There has never been a more important time to join a trade union.

When a group of workers act and speak together, their employer has to listen. That's how unions make things better at work.

Nearly 5.5 million people are in a union. Many have been on the frontline during the pandemic, from our brilliant NHS workers to retail staff and care workers.

Unions protect jobs, stop people being treated unfairly and make workplaces safer. During the pandemic that's been more important than ever.

“My trade union stands between me and an uncertain future.”
