War on Want works to achieve a vision of a just world, through our mission to fight against the root causes of poverty and human rights violation, as part of the worldwide movement for global justice.

Tens of thousands of members, supporters and activists give their time and money to take part in War on Want's work. Many hundreds of thousands join forces in the social movements, trade unions and workers' organisations that are War on Want's partners and allies around the world. Millions more benefit from the victories we win together.

We are a charity, but we aren't an aid agency and we don't impose solutions to poverty. We listen to the voices of our partners and allies, acting to enable those at the frontline of poverty and human rights violation – for long term solutions and real change. We believe poverty is caused by the political choices made by powerful elites: governments, wealthy corporations and others.
