

please complete our

user survey

on TUC Development Education Materials

Over the past five years, the TUC has developed a significant range of international development education material (see www.tuc.org.uk/deved), including a series of Fact Files that cover issues such as trade, refugees and migration; the role of trade unions in international development; and a digest of resources. To make sure they remain relevant and used, we are in the process of updating some of our publications. Please take a few minutes to give us your views by

completing this short questionnaire.

Please print out, complete and send to:
