SUPPORTING LONDON'S PUBLIC SERVICES

I / we, the undersigned, wish to express our strong support for London's Public Services. These have provided vital support to London's population over decades and made significant difference to the quality of life of many, particularly children, the elderly, poorer families and ethnic minorities.

We express our strongest concerns at the scale of financial cuts which these services are required to make and the drive to require the NHS and schools to compete in the free market. These developments directly threaten the quality of life of Londoners, damage the London economy – private as well as public sector, and will further widen the gulf between rich and poor.

I / we support the Southern and Eastern Regional TUC campaign to support London Public Services and the TUC March for the Alternative on Saturday 26 March.
